

HOSPITALITY SOLUTIONS

Intelligent Design &
Innovation

*"The solution was designed from the beginning,
especially for our unit, so we managed to reach*

*a much higher level of service quality
than it would have been without Sensoo."*

Hotel Manager, Platinia

GUEST ROOM MANAGEMENT SYSTEM

- Energy & Management Efficiency
- Lighting & Temperature Control
- Full & Personalized Guest Room Control
- Extended Features

Our system offers a package of personalized solutions which meet the most demanding requirements of hotel managers.

The solution itself, given its design, simplicity and innovative technology is meant to inspire a different kind of living.

WHAT WE DO

•ACCESS CONTROL•

The entry and exit of customers or employees is granted through the QR/RFID reader.

•ROOM MANAGEMENT•

Provides control over the room temperature, lighting, and more.

•INTEGRATIONS•

API developed in-house for integrations with other solutions and systems.

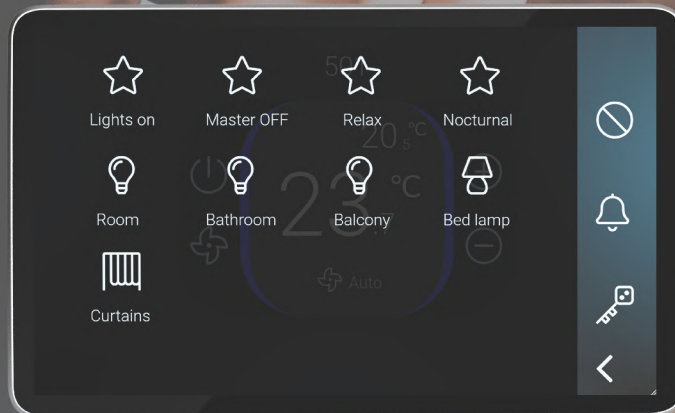

SENSOO CONTROL APP

•All Room Controls On One Device•

With a single interactive interface available on guest room tablets, give guests complete control over their smart room.

- Temperature Control
- Lighting Control
- Window Curtains Control
- Entertainment

Reduce Unnecessary Consumption

For us energy efficiency is essential, therefore our system is developed to save it.

Comfort

We offer comfort to hoteliers for an easier work process and to guests for an unique experience.

Premium Customizable Equipment

By creating custom made design with intuitive user-friendly touch controls.

WE OFFER

sensoo

Recovery Cloud

Generates and stores in the cloud a back-up copy of the system, making possible data recovery and system restoring.

100% Compatibility

By using our own integrations solution developed in-house which grant all of our products a high degree of compatibility in integration with other systems (HVAC, PMS, DOOR LOCKS)

Support 24/7

Getting you in contact with our support team which will be able to help you with every issue you encounter along the way.

WHAT IS SENSOO?

COMFORT | ECONOMY | DESIGN | MODULAR

Sensoo is a room management system (RMS) that provides real-time reports about the room and control over it.

The solution represents a complex package of innovative personalized modules which meet the most demanding requirements of

hotel managers, be it the optimization of resources or the comfort of their clients.

Sensoo is not only an affordable RMS, but also a highly intuitive and easy-to-use system for hotels of all sizes and star ratings.

WHY USE SENSOO

We consider it is very important to start focusing more on providing comfort and good experience to the guests, but also on using all the resources in a smart way.

API

Own API developed in-house for integrations.

Flexibility

The migration from one product to another is smooth.

Technology

We use high-end embedded technology to design innovative scenarios.

Matching Your Style

When projecting our devices we make sure we consider our user's preferences. Custom made design is meant to create the best experience.

Reporting service

The module generates periodic and personalized reports.

In-house

Our complete solution - hardware & software is developed in-house.

Apps

Sensoo Control - Room Controls Mobile App
My Sensoo - Interactive App for better guest-hotel communication.

Bridge Of Worlds

The intelligent design breaks the communication barriers, making our products user-friendly.

DEVICES

DESIGNED TO CATCH THE EYE

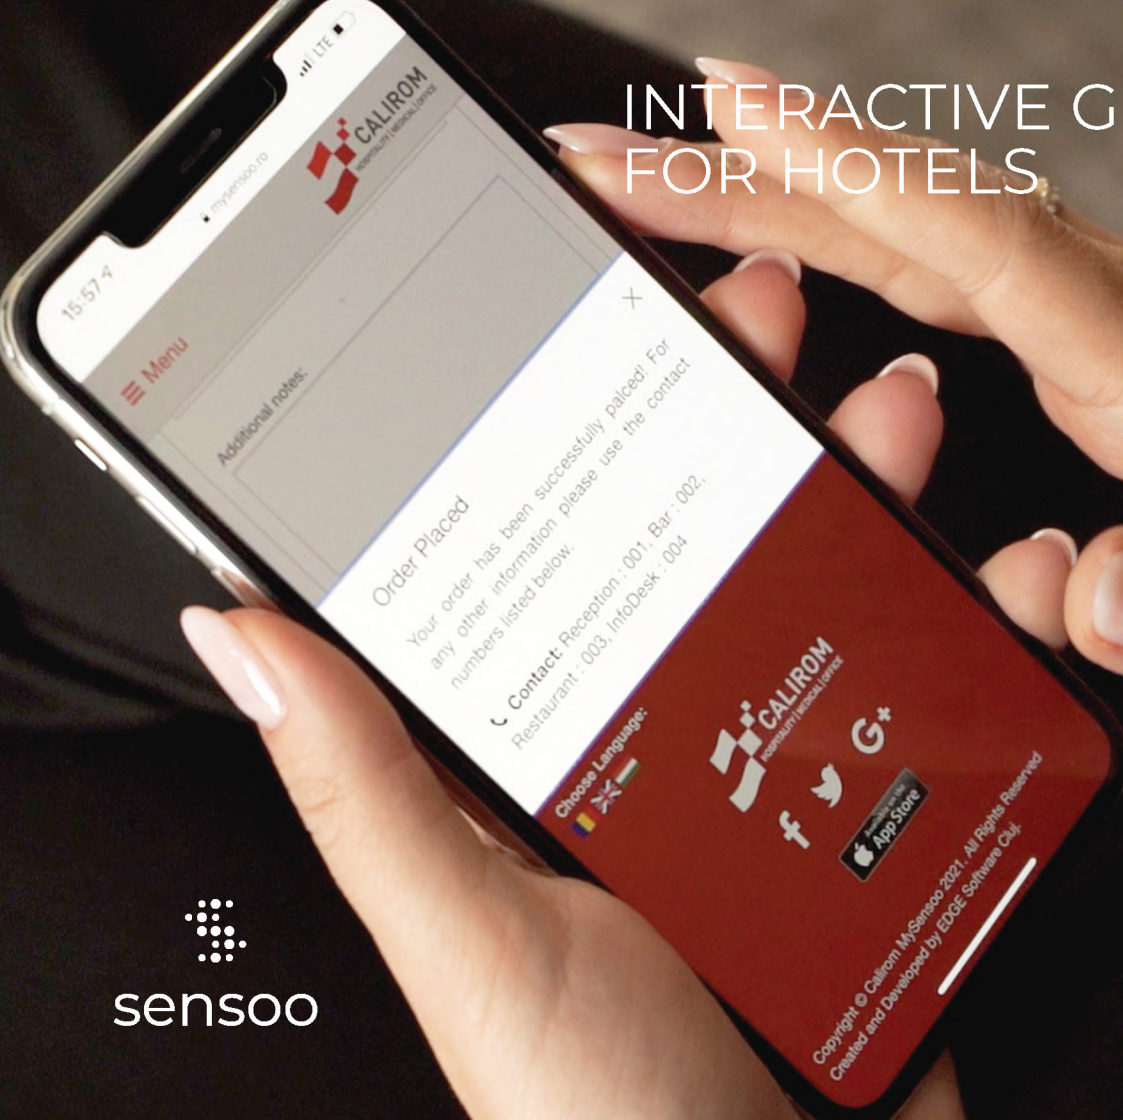

- 1 SMART LOCKS INTEGRATIONS
- 2 PRESENCY DETECTION MODULE
- 3 INTUITIVE THERMOSTAT
- 4 ADDRESSABLE LIGHTING CONTROL
- 5 IN-ROOM TABLET
- 6 SMART SENSORS FOR WINDOWS flood and S.O.S

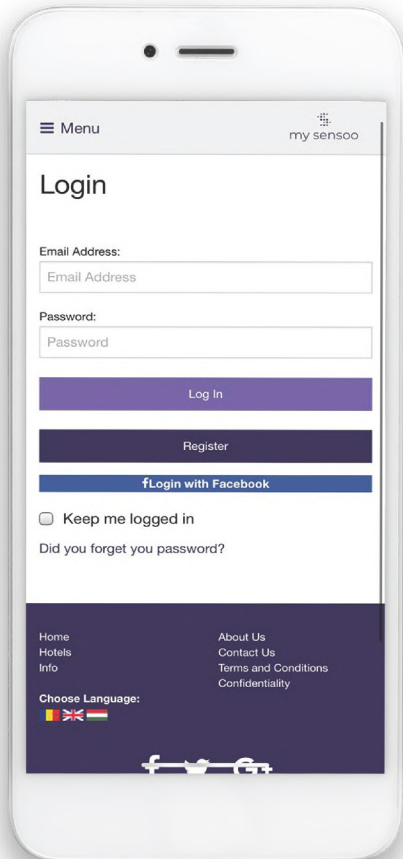

*Our newest technologies:

STC (Standby Touch Recovery) & AAB (Adjustable Automatic Backlight). We use high-end embedded technology to design innovative scenarios.

INTERACTIVE GUEST APP FOR HOTELS

my sensoo

1

CREATE AN ACCOUNT

Create an user account by accessing the Log In page at www.mysensoo.ro or in the MySensoo app. Click on Register, fill in the information there and you will receive a confirmation notification on your email address.

2

ENTER THE CODE

To enter your MySensoo account, just click on the „Check-in” button on the top right corner. Enter the 5 digits code you’ve received at the reception and that’s it!

3

WELCOME TO MYSENSOO !

After entering the 5 digit code you will have access to the hotel’s interface, from where you can enjoy all the facilities and features MySensoo places at your disposal. When your stay at the hotel has expired, you will automatically be restricted from accessing MySensoo.

The MySensoo.ro platform is really easy to use! You can access it anytime from your laptop, or you can download the MySensoo app directly to your mobile phone or tablet.
